

Salon COVID-19 Safety Protocols-

-Please refrain from sitting on salon furniture unless it pertains to the service you are receiving.

-All beverage service has been removed from our offerings. We will be unable to provide this for the foreseeable future. You may bring your own beverage, if needed.

-We are a private salon studio.

A maximum of 1 stylist and 1 guest will be allowed in the salon at any given time. Please come alone to your appointment.

-All clients must wear a face mask before entering the salon. If you do not have one, one will be provided to you at an additional charge. Each and every client will be covered with a freshly laundered and properly sanitized cape or robe. Please dress properly for the service you are receiving as, for now, the changing room will no longer be available for use. Please leave additional clothing, coats, hats, and other unnecessary items in your car.

-Service Providers will be wearing the proper PPE for our industry and will also be wearing a newly laundered smock or apron for each guest.

-Additional time will be applied to every appointment to properly sanitize highly touched surfaces. This includes, but is not limited to; front door handle, phone, POS devices, bathroom, workstations, small tools, shampoo station, chairs and hooded dryers, color bowls, brushes, back room counters and sinks. These high touch areas will be properly cleaned and sanitized between each guest.

-All services will be performed with the client wearing their PPE mask. Shampooing services require that your eyes, nose and mouth be covered. A small towel will be placed on your eyes if keeping your mask on, or over the entire face whichever is necessary to complete this service.

-Salon tools have and will continue to be sterilized with Barbicide, or equivalent CDC & EPA approved disinfectant.

-Please call or text the salon to alert us of your arrival, but remain outside until I am ready to receive you and instruct you to enter.

-All clients must wash and sanitize their hands upon entering the salon.

-If you are sick, or experiencing any Covid -19 symptoms, please call me immediately to reschedule your appointment.

-Please bear with me; I may run late at times while I work out the timing following these new protocols.

Thank you for visiting me during these times. I will do everything I can do to ensure your health and safety when visiting me at the salon.
